System Overview

W series 5MP IP cameras are project solution which is powered by Starlight, true WDR, smart H.265+ and advanced

cutting-edge Sony sensor for video monitoring.

It delivers crystal clear images and support industry-leading IVA smart event alarm

Cloud function is built-in for every single device, which are more convenient and flexible for real time and remote viewing.

Functions

H.265+

Delivering high quality video with up to 70% lower bandwidth. H.265+ is the optimized evolution of H.265 and traditional H.264.

The Smart H.265+ includes a series of encoding strategy like Dynamic ROI, smart 2D&3D noise reduction.

IVA (Intelligent Video Analysis)

It allows detecting multiple object behaviors, like Face Detection, Tripwire, Intrusion, Objects Detection, Target Counting etc.

With precise mechanical and rugged casing design, it stands against water and dust with industrial IP67 rank.

Support ±30% input voltage tolerance, it could work safely in extreme unstable power condition.

With working temperature range -30℃ to +60 ℃, it works well in a variety of harsh outdoor environments.
